TIUL'PAN (Tulip):

10 August 1944; (a KOMAR or Kravchenko message) changed to something beginning with KAN Sept. 1944.

8/30/47
15. Miscellaneous.

✓ LIB?? (Lieb?) or possibly LIBERAL: was ANTENKO until Sept. 1944. Occurs 6 times, 22 October - 20 December 1944. Message of 27 November speaks of his wife ETHEL, 29 years old married (?) 5 years, ".....husband's work and the role of METR(0) and NIL".

AMUR? (Amour?):

was ZHA---?--et (Jeannette?) before October 1944; occurs once 14 December 1944 with DZHON.

METR (like many other equivalences in the code book, this might have an alternative reading, perhaps METRO; as METR it means "meter" and as METRO it is a nickname, applied for example to the Paris subway system): was SKAUF until September 1944. Occurs 27 Nov. 1944. (something about LIB?'s wife Ethel? knowing about her husband's work and the role of METR(0) and NIL; notice in message 700 below how METR(0) and NIL come together). Seems to occur 5 December 1944 in phrase "METR(0) and ?HYU?SON (Hughson?)". Note on page 733 of the Report of the Royal Commission: "Metro..... ...The Embassy of the U.S.S.R."

GRANT:

occurs 26 May 1944 in phrase "of GRANT and EARL"; message mentions FFI (Forces Francais de'l Interieur?) or possibly a name ending in FFI (FFY). In 1945, GRANT was used in Canada as the covername of Colonel Nikoloy Zabotin, Soviet Military Attache in Ottawa and head of military intelligence work in Canada (see Report of the Royal Commission).

EM (M):

covername of Vitaliy Semionovich Mamluiga in message of 23 August 1944. He was a member of the Soviet Purchasing Commission, having entered the U.S. in December 1943. He was still here in September 1946. This name may be EMA, and may be the same EMA listed 28 November 1944 (see below).

KANUK? (Canuck?):

Occurs 4 times in 2 messages, 24 July and 1 August 1944.

SI (C?):

occurs 23 October and 6 December 1944.

PA (Pa?):

occurs 14 December 1944.

Working now at a/the robot plant. We communicated a detailed characterization of B. in letter 7 of 5 September. In the conversation, B. related:

(?The League?) in the last two months has been trying to have 60 days spent in getting robot production underway. The firms working out a/the system --2F-- so short a time allowed to get production underway. REPUBLIC agreed to produce robots and began production in 55 days. On 2 September (there) were --4F--. Weight of each robot 4500 pounds, speed 500 miles per hour. Range unknown. --2F-- on the robot has a diameter of 6 inches, length 12 inches. (?The League?) --1U-- --2F--. Right now production is going on under an intensified program.

LIBERAL has confirmed in connection with the production of robots and --1F-- that --2F-- of the robots will be assembled on aircraft carriers for action against Japan.

REPUBLIC is about to turn out 600 P-47 planes a month. The plane affords 525 miles per hour. The plant has 20 thousand workers --7F--

8. Next in order comes message 1340 [753] of 21 September, already reported on (ENORMOZ). Then comes New York-Moscow message 1657 [923] of 27 November 1944:

To VIKTOR.

Your telegram no. 5356. Intelligence on LIBERAL's wife. Surname that of her husband, Christian name ETHEL^a 29 years old. She has been married 5 years --4F--. A fellow countryman [member of CP-USA] in 1938. Sufficiently well-developed politically. She knows about her husband's work and the role of METR [METRO?] and NIL [Nile? Neal?]. --36FU-- 5. --1U-- MAI in 1936. --1U, 1F-- of ARSENIY. --4F--.

923

(?ANTON?)

a. The group identified as Latin THE has occurred only here, and the identification may, of course, be wrong.

The word MAI is puzzling. If connected with the name of the month, MAY (also a covername), it would be the plural

~~TOP SECRET~~ GLINT

~~TOP SECRET GLINT~~

(sense?). In the original it is repeated, a treatment most often given to names in this traffic. Possibly it is the genitive of a covername MAYA (Maia the consort of Vulcan, or MAIA the mother of Hermes?).

This message is followed by 1773 [967] of 16 [15] December 1944 (ENORMOZ).

9. Note on the word "sketch". In the report on the covername ENORMOZ, section 4, LIBERAL is to inquire of CHESTER about "sketches" from the milieu of persons working on ENORMOZ and other domains of technical science. This is the same word (NABROSOK) that occurs in section 4 of the present report in the meaning 'short characterization' or 'short biography'. This may be the meaning of the word in the former report, too, rather than 'drafts' or the like.

(b) (1)
(b) (3)-18 USC 798
(b) (3)-50 USC 3024(i)
(b) (3)-P.L. 86-36

1. Occasion of the Report. In a report of about 27 April 1948 ("The Covernames 'ANTENNA' and 'LIBERAL' in [] Messages"), section 8, a translation was given of New York-Moscow message 1657 of 27 November 1944. Further work on this message has so improved the text that a revised translation is in order.

2. Translation.

To VICTOR [VÍKTOR].

Your telegram no. 5356. Intelligence on LIBERAL's wife. Surname that of her husband, Christian name ETHEL 29 years old. Married 5 years. Finished middle school. A fellow countryman^a in 1938. Sufficiently well-developed politically. She knows about her husband's work and the rôle of METR [METRO?] and NIL [Nile? Neal?]. In view of (her) delicate health does not work. 923

(?ANTONY [ANTÓN]?)
(~~ANTONY~~)

^a

Member of the Communist Party of the U.S.A.

^b

Possibly "A person understanding the way things lie and devoted." Russian: --1G-- POLOZHÉNIE DEL I-PREDANNUM CHLOVÉKOM.

^c

The syntactical connection of "Engineer" etc. is not clear, nor does it seem that "all", if correct, is the direct object of "communicate".

^d
Presumably MOSKOVSKOY AVIATION INSTITUTE (Moscow Aviation Institute).

3. Comment. It will be observed that the internal message numbers are now two, 922 and 923. Of course, MAI, ARSENIUS, and the rest will now be seen to have no necessary connection with LIBERAL's wife.

It should be noticed that the noun "work" (RABOTA) has a special meaning in message 922, and probably the verb (RABOTAT') sometimes has a corresponding implication, that is, '(conspiratorial) work in the interests of the U.S.S.R.' If "work" is so interpreted in message 923, further light may be thrown on the meaning of ZAVOD (plant, works). ARSENIUS's plant might be ARSENIUS's net. (However, ELIZERIN is an engineer and might work at a real plant. Then, if ARSENIUS is an agent, this might be "the plant that ARSENIUS spies on".)

In the same way, the work that ETHEL cannot do in view of her delicate health may not be the earning of her bread and butter, but conspiratorial work.

It should be noticed that even in the message translated (666) YUN occurs with a noun ending (YUNU, cative); hence it is not evident that YUN is identical with YUNOY (Young) of the covernames message 798 (Report #1, Supplement), wherein the name was changed to something beginning with KU.

c. Spelled in Latin letters and repeated.

d. Dubious identification. The group falls two places before a group known to stand for the plural of the word for "sign", meaning "distinctive marks" or "description".

e. There is a possibility that the word immediately following the "1" is "October".

f. Presumably a covername, in the range of, say, DANTON, and, indeed, if the book admits the word KARPAGEN (Carthage), an otherwise almost useless word, for use as a covername, it might well admit even so fantastic a name as DANTON. But, on the other hand, this expression may be something like DANNOY CHELOVEK, "the given person."

g. Apparently in the text in spite of the suspicious grammar.

h. The text has NOSPITAL, which is a psychological error.

The second example is a report on a Max Elitcher, who was listed in the Washington Telephone directory in 1944 and is still listed:

a. The ENKO is definitely good; ANT appears to be correct. ANTENKO had his covername changed to LIB (?) or LIBERAL (?) in message #700. (See supplement to Report #1)..As noted in Report #1, section 15, LIB (?) (ANTENKO) according to a message of 27 November 1944, had a wife named ETHEL who was 29 years old and had been married five years.

b. "Work" may have its usual force, but it is evident from other messages that it may mean "work in the interests of the U.S.S.R. or some agency of it."

c. Carthage is Washington.

d. Spelled in Latin letters and repeated. The only dubious part is the final ER, the group for which has so far occurred only here.

e. Dubious identification.

f. Russian word ends in NIK.

g. Here and below in Cyrillic letters, transliterated MAKS YE. (YE is the sound of the letter shaped "D", which was evidently used as a mechanical transliteration of Latin E.)

h. Tentative reading which may be verified later.

i. Now known to mean (U.S.?) Communist. See section 1d above.

j. Dubious identification, based on proportionating calculations on a related captured code.

~~TOP SECRET~~ CLINT

k. "Please --" is one group.

1. "Communicate" does not seem to give sense. The group is possibly mis-identified or else the group identified as "officially" is really "official acceptance" or some other noun or noun phrase. (The same word, YEVO, means "him" or "his".)
